Projects

- InsightEdge** | *React, TypeScript, FastAPI, Python, Express.js, Firebase, Gemini AI, PyMuPDF, Recharts, Tailwind CSS* 🔗
- Architected a full-stack, AI-powered career guidance application using React and TypeScript, backed by a dual Python/FastAPI and Express.js microservice architecture for intelligent resume parsing and data extraction.
 - Integrated the Google Gemini API to power a context-aware career chatbot, providing personalized, real-time guidance by synthesizing extracted user skills with targeted Smart City industry requirements.
 - Engineered deterministic algorithms to evaluate user profiles against 10 specialized roles and 8 global markets, generating actionable skills-gap analyses and powering a bilateral peer-matching system based on complementary skills.
- My-Finance-Planner** | *React, TypeScript, Tailwind, FastAPI, Firebase, Scikit-Learn, FinGPT, Gemini* 🔗
- Developed and deployed a full-stack personal finance platform using React and FastAPI, leveraging Firebase for secure authentication, real-time data storage, and application hosting.
 - Engineered AI-driven features including automated expense categorization via Scikit-Learn, stock sentiment forecasting using FinGPT, and a personalized financial advisor chatbot powered by Google Gemini.
- BiteWise - Smart Restaurant Management** | *React, TypeScript, Tailwind, Firebase* 🔗
- Built a comprehensive restaurant platform with four role-based interfaces (Admin, Chef, Waiter, Customer), integrating automated inventory tracking and Razorpay payments.
 - Engineered a real-time, item-level order synchronization system using Firebase, streamlining kitchen-to-floor communication and significantly reducing customer wait times.
